The TCR-FORD2 Harness (Tailgate-Camera Replacement) kit easily adds an aftermarket camera to the OEM reverse camera harness on select Ford trucks where a topper has been added, or the bed has been removed. Built-in line with this harness is a composite-differential converter to gain you the best possible quality (and OEM-proper) signal to the screen.

This kit includes a 5" piece of industrial, waterproof heatshink tubing to add over the RCA/power connections once complete.

NOTE: This harness is NOT compatible if this truck is equipped with the trailer package (see pic #2)

NOTE 2: If truck is equipped with wide-frame option, contact NAV-TV before ordering.
