 manufacturer
NAV-TV

 SKU NTV-KIT997

 weight
5.00 Lbs

 market
USA, Rest of
World, Europe

 UPC/EAN
00635510695547

The ZEN-V allows the seamless addition of aftermarket amplifiers into compatible vehicles, delivering audiophile-quality sound without compromising the vehicle factory fit, finish or features. This package includes a reusable OBD2 programmer to enable the Audi A2B amplified system to be compatible with the ZEN-V.

Utilizing the same processing power as NAV-TV's competition proven M650-GM, the ZEN-V produces a completely flat audio output without any factory time delay or equalization, eliminating the need for summing devices, an audio correction DSP or the removal of the factory audio compensation microphones.

The **ZEN-V produces a 12 channel analog output with a S/N Ratio of 112dB**. For vehicles with video playback capability, the **ZEN-V supports 7.1 and 5.1 audio[2]**.

NOTE 1: The factory Audi MIB3 A2B amplifier must remain in the vehicle and connected.

NOTE 2: If the vehicle has motorized speakers, they will no longer motorize up and down.

Car Radio Versions

MIB3 with MOST 150 Connector
at Radio

ZEN-V and OBD Programmer Bundle Compatibility Chart

Model	Year Range	Version	Radio	Notes
Audi/Audi with MIB3 and A2B Amplifier	2020-2024	USA, Rest of World, Europe	MIB3 with MOST 150 Connector at Radio	
Audi/e-tron	2021-2024	USA, Rest of World, Europe	MIB3 with MOST 150 Connector at Radio
